

# Pinkalicious™

## Make Your Own Tooth Fairy Pouch!

After Pinkalicious lost her sweet tooth she tucked her tooth and a note to her Tooth Fairy, Tootheetina, under her pillow. Create your own pinkatastic Tooth Fairy pouch to tuck under your pillow after you lose your tooth.

Ask an adult to help you cut, sew, and decorate the pouch.

### You will need:

- A piece of pink felt
- A piece of white felt
- A needle and pink thread
- Fabric marker for drawing
- Scissors
- Art supplies for decorating (glitter glue, buttons, fabric paint, etc.)

### Instructions:

1. With the help of an adult, use a pair of scissors to cut the pink felt into a 2" x 5" rectangle.
2. Using a fabric marker, draw a 1 1/2" x 1 1/2" image of a tooth on white felt and cut the image out using scissors.
3. Sew the tooth onto the pink felt using a needle and pink thread. Stay close to the edge of the tooth as you stitch it to the pink felt.
4. Fold the pink felt in half to the right with the decorated side on the inside. Sew the bottom and right side of the felt together with the needle and pink thread to create the tooth pouch.
5. Turn the pouch right-side out until the tooth image is on the outside of the pouch. Then decorate with buttons, paint, glitter, and stickers for a pinkerrific touch!
